I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: Please make it possible for women to retain the right to purchase low dosage estradiol. It concerns me that all pharmacies do not and probably will not carry this product especially in several parts of our country. It will probably be necessary for women to purchase natural hormones over state lines.
